

## Career Development in China – join a winning team!

The **SKF Group** is the leading global supplier of products, customer solutions, and services in the business of rolling bearings and seals. SKF was founded in 1907 in Sweden. Today it employs 40.000 people in its 100 manufacturing sites and 70 sales companies distributed all over the world.

**SKF** opened the first branch office in **China** in 1916 and has now, besides the Holding company in Shanghai, ten manufacturing sites, and a few different sales organizations with 14 sales offices all over China. SKF has since several years a dramatic growth record in China and with extensive investments and development activities, the growth is expected to continue and strengthen the position as the market leader even further!

### International Trainee Program

Now **Chinese University students in Europe and USA who plan to return to China**, can join a world leading company and contribute to further growth and operational excellence!

SKF is now launching an **International Trainee Program** to invite high potentials to join the China talent pool. In particular, we are looking for trainees in the following areas:

- Application engineering
- Manufacturing
- Process engineering
- Quality
- Supply Chain

Successful candidates will join SKF (China) Investment and then go for a 2-year international assignment in Europe or USA for individual development and networking. You will get a clear career direction, supported by a tailor-made program with rich contents, a mentor and attention from senior management. After the 2-year international assignment, you will be offered a job in one of the business units in China to start your long-term career development.

Who are we looking for?

- Master degree students studying in Europe or USA, major in mechanical engineering, production, quality or supply chain management
- Determined to station and work in China after the trainee program
- Interest in people and with leadership ambitions
- Share our values – Openness, Teamwork, Empowerment and High Ethics
- Good command of spoken and written English and Chinese

If you would like to take part in the exciting future of SKF in China, please send your CV (in English and Chinese) to [recruitment.china@skf.com](mailto:recruitment.china@skf.com) by March 30, 2007. You are most welcome to visit the SKF website [www.skf.com](http://www.skf.com) to learn more about SKF.
